

Large Gallery Wrap Kit assembly instructions

Check that you have all the parts supplied:

Canvas print with two bars attached. Take care not to damage the print when handling.

Two additional bars with adhesive tape along one side.

One center brace wood bar (1.25x0.5 inch cross section)

Four corner tensioners

Four metal staples

You will need the following tools:

Hammer

Staple gun (optional but recommended). Manual, electric, or pneumatic staplers all work fine.

Assembly instructions

- 1) Find a flat work surface large enough to hold the print. If you don't have a table large enough, you can work on the floor with or without a carpet.
- 2) Place the print face down on the protective paper provided.
- 3) Remove the protective tape from the adhesive on one of the extra bars.
- 4) Hold the bar over the side of the print with the groove in the back of the bar positioned on the side towards the print. Note that there are markings for both the ends of the bar and the sides.
- 5) Center the bar on the markings on the canvas and lower carefully to make contact with the adhesive. Press down on the bar to set the adhesive. Repeat with the other end.
- 6) Fold the corners of the print against the ends of the bars.
- 7) We recommend stapling, but if you choose not to staple, trim the print along the back edge of the board with a sharp knife. Put newspaper or cardboard under the board to keep from cutting the surface below.
- 8) Rotate two of the bars up until they meet in a corner. Insert one of the large staples provided into the grooves near the ends of the bar and hammer gently into place. Repeat with the other three corners.
- 9) Staple the print to the back of the two bars. Pull the canvas tight with one hand while stapling with the other. If the staples do not go in all the way, tap with the hammer.

10) Insert the corner braces into the groove on the inside of the stretcher frame. Gently hammer the braces towards the corners to increase tension in the canvas.

11) Insert the center brace half way along the longest side of the print. Rotate into place and use a hammer if necessary to center it.

Warranty: We will replace any of our products for free if defective. If one of our prints is damaged after arrival for any reason, we will replace for half the current price (with no other discounts) plus shipping.

Limitation of Liability: We will not be otherwise liable for any loss or damage whether direct, indirect, special, incidental, or consequential.
